SUMMARY

Frontend software engineer with 4+ years building production web applications in React, Next.js, and TypeScript. Currently developing HRM and CRM platforms used daily by ~150 employees of a US law firm, working fully remotely with US-based stakeholders. Previously shipped 15+ client projects end-to-end at a Dhaka software agency. Comfortable owning features from Figma wireframe to deployed product, with a focus on performance, reusable component architecture, and maintainable code.

PROFESSIONAL EXPERIENCE

Software Engineer (Frontend) — Raju Law – US Immigration & Investment Attorneys, USA · Apr 2025 – Present Remote

- Build and maintain the firm's HRM and CRM platforms, used daily by ~150 active users, owning frontend delivery from wireframe to production.
- Developed **Smart Assist**, an OpenAI-powered assistant inside the HRM that answers natural-language questions over HR data (e.g. an employee's task reports for a date range), replacing manual navigation across modules.
- Restored the failing AWS Amplify deployment pipeline and cut production build time ~18% (to 14.8s across 30 routes) by lazy-loading heavy dependencies (PDF viewer, emoji picker), consolidating icon libraries, and pruning the build graph.
- Built a shared, typed component library across both products, standardizing forms (React Hook Form + Zod), data tables, and JWT auth flows.
- Collaborate in a fully remote, async workflow with US stakeholders and backend engineers; participate in code reviews.

Stack: Next.js · TypeScript · Tailwind CSS · shadcn/ui · TanStack Query · OpenAI API · AWS Amplify

Software Engineer II — Techsist Ltd, Dhaka, Bangladesh Nov 2022 – Apr 2025

- Progressed from Intern to Software Engineer II through five promotions in 2.5 years.
- Delivered 15+ production client applications end-to-end, including a dealership management system (Metrocem Automobiles), a manufacturing operations UI (Metrocem Ispat), learning management systems (Edstructure, Borgo), and an e-commerce platform (Mesmerize).
- Implemented secure JWT authentication, role-based access, input validation, and complex sortable/filterable data tables reused as internal templates across projects.
- Managed server state with TanStack Query and built responsive, cross-browser UIs with Material-UI, Ant Design, and Tailwind CSS.
- Translated client requirements and Figma designs into scalable project structures adopted by the team as starter templates.

Stack: React · Next.js · TypeScript · TanStack Query · Material-UI · Ant Design · Tailwind CSS

Jr. Service Engineer — AL-Fatah International, Dhaka, Bangladesh Mar 2022 – Oct 2022

- Customer-facing technical support and equipment servicing role; transitioned into software engineering the same year.

SELECTED PROJECTS

My Maid Support — Cleaning-services booking platform (freelance, Australian client) mymaidsupport.com

- Designed and built the entire platform solo — marketing site plus service booking flows — for an Australian cleaning company. Next.js · TypeScript · shadcn/ui · Framer Motion.

OurOpero — Project & workflow management SaaS (at Raju Law)

oupero.com

- Frontend of an all-in-one team workspace unifying tasks, docs, dashboards, automations, and time tracking. Next.js · TypeScript · shadcn/ui · TanStack Query.

Umar Education — Study-abroad consultancy platform

umar-eg.com

- Server-side-rendered, SEO-optimized site for an education consultancy. Next.js (SSR) · Material-UI.

Maison — Headless fashion e-commerce + CMS (personal, open source)

github.com/iamzubair6/medusa-e-commerce · live

- Storefront + admin CMS where landing pages are composed from reorderable content blocks; guest checkout, promo codes, and parcel tracking on a Medusa.js commerce engine. Bun monorepo · Next.js App Router · TypeScript · Prisma · Tailwind CSS · Vitest/Playwright · Docker.

SKILLS

Languages	TypeScript, JavaScript (ES6+), Python, HTML5, CSS3
Frontend	React, Next.js (App Router, SSR), Vue.js, Tailwind CSS, shadcn/ui, Material-UI, Ant Design, SCSS
State & Data	TanStack Query, Redux, React Hook Form, Zod, REST APIs, JWT authentication
Backend Exposure	Node.js/Express, Django, Prisma
Tools & Platforms	Git, AWS Amplify, Vercel, OpenAI API, Figma, Postman

EDUCATION

B.Sc. in Computer Science & Engineering — Sonargaon University, Dhaka

2018 – 2021

LANGUAGES

English — professional working proficiency · **Bengali** — native
